

PATTIRI SHRAVYA GEETHIKA

shravya.pattiri@gmail.com | +91 7396701600 | LinkedIn | GitHub

Professional Summary

Gained hands-on experience with AWS IAM, S3, Glue, Crawlers, Athena, and CloudFormation for data engineering workflows.

Education

- Degree Institution CGPA/Marks Year
- B.Tech (CSE-AI&ML;) GVPCEW, Visakhapatnam (NAAC A) 8.24 CGPA 2023 – Present
- Senior Secondary Chaitanya junior college, Visakhapatnam 90.3% 2021 – 2023
- Secondary (High School) Sri Chaitanya Techno School 100% 2020 – 2021

Skills

Algorithms, Android, Aws, Azure, Backend, Computer Vision, Data Structures, Deep Learning, Docker, Express, Frontend, Full Stack, Generative Ai, Java, Javascript, Jenkins, Machine Learning, Mysql, Node, Node.Js, Python, React, Sql, Tensorflow

Experience

AWS Data Engineer Intern

July 2026 – Aug 2026

- Practiced data ingestion, ETL, data cataloging, transformation, SQL-based querying, and cloud-based data lake architecture using

Java Full Stack Intern – Lumora Systems (OFFLINE)

May 2026 – July 2026

- Developed a full-stack healthcare management system using React.js, Node.js, Express.js, and MySQL.
- Built RESTful APIs, implemented role-based authentication, database integration, and user-specific application workflows.
- Cloud Computing Virtual Intern (AWS & Azure) – ExcelR (APSCHE)
- Gained hands-on understanding of cloud computing concepts using Microsoft Azure and Amazon Web Services (AWS).
- Worked on cloud services, virtual machines, storage, and cloud deployment concepts.

Java Full Stack Developer Virtual Intern

Jan 2026 – Mar 2026

- Gained experience in frontend and backend development using Java-based technologies and web application concepts.

Python with AI & ML Trainee – Next Chapter

May 2025 – July 2025

- Learned Python with AI & ML concepts, focusing on data processing, machine learning fundamentals, and AI applications.

Projects

CallMedex – Full Stack Healthcare Management System

- Developed a full-stack healthcare management platform using React.js, Node.js, Express.js, and MySQL.

Real-Time Face Mask Detection System

- Developed a computer vision-based face mask detection system using Python, TensorFlow, MobileNetV2, and OpenCV.

InsureAI – Insurance Fraud Detection & Analytics System

- Developed a Streamlit-based fraud detection application using Python and PySpark.

Achievements

- ETSO – Second Level Qualifier, Gold Medalist, and Scientific Calculator Awardee.
- GDG on Campus – Recognized Participant (Awarded Points & Goodies).
- AIMERS Club – Open Source Contributor Lead.

Certifications

- Data Analytics with Python – NPTEL (IIT Roorkee) | Silver Elite
- Hedera Certifications (HCF, HBF & HCDA) – The Hashgraph Association
- Introduction to Generative AI – IBM (edX)
- Cisco Networking Academy (NetAcad) – Networking Certification
